S.no: s23010373

Q1).

Assumptions:

1. All staff (Doctor, Nurse, Surgeon) are subclasses of Staff with unique Employee_No.
2. Only Doctors and Nurses get Monthly_Salary - Surgeons work on contract.
3. Each Head_Doctor monitors several Doctors (1:M).
4. Every Patient has one Primary_Care Doctor - a doctor can care for many patients.
5. Each Nurse has Grade, Years_of_Experience, and Surgery_Skill_Type.
6. Each Patient has unique Patient_ID with Name, Age, Address, Telephone_No, Blood_Type, and Allergies.
7. A Patient is assigned one Location (Bed_No, Room_No, Nursing_Unit) at a time.
8. A Patient can take many Medications, and each medication can be taken by many patients.
9. Each Surgery is identified by Patient_ID and Surgery_Name.
10. A Surgeon performs many surgeries - each surgery involves at least two Nurses.
11. No surgery exists without a Patient, Surgeon, and Nurses.

Q2).
